USING DIGITAL TECHNOLOGIES FOR RAISING THE BAR FOR E-GOVERNANCE

The Indian Government's push towards building a comprehensive digital ecosystem is reaping rich dividends.

The Government's think tank, Niti Aayog is coming up with a national policy on Artificial Intelligence. Niti Aayog is also working on a strategy paper for blockchain in India, which will look at practical use cases and areas where the impact of the technology can be significant. The change is visible, and one can see government departments actively using emerging technologies to bring about real transformation.

At the Indian Express Group, we have been part of this journey since the beginning and are excited to be part of this huge digital transformation. As a continued extension of our support to the Digital India initiative, this edition will continue to showcase exemplary success stories from central and state departments, and share best practices from government thought leaders.

The theme for the **24th edition of Technology Sabha** is aimed at recognizing and capturing innovative best practices, frameworks and digital success stories using emerging technologies. With emerging digital technologies such as AI and Blockchain being used extensively, we have decided to keep the theme for the conference as, '**Using Digital Technologies For Raising The Bar For E-Governance**'.

ABOUT TECHNOLOGY SABHA

Organized by the Indian Express Group, Technology Sabha, has since long been India's premier e-Governance Forum; setting the pace for e-Governance event with leadership dialogues, actionable case studies and best practices, networking opportunities and technology showcases. Technology Sabha has been able to gather key Government ICT practitioners and decision makers, under one roof, as they work towards the creation of a more transparent and efficient governance mechanism.

The 24th edition of Technology Sabha will be held at Novotel, Vizag on 9th - 11th August 2018. The 3 day residential conference will explore new trends and innovations in creating a digital ecosystem for accelerating e-Governance initiatives.

TOPICS

Some of the key topics that will be discussed include:

- Real-time governance: How some states are using dashboards to monitor governance on a real-time basis
- Using emerging technologies (Blockchain, AI) to radically transform governance
- Significance of IoT in ensuring better service delivery
- Building a better cyber security framework: Lessons from global hacks
- Best practices from specific technology led initiatives in central MMPs such as Income Tax, India Post, Passport, EPFO and state MMPs such as agriculture, healthcare, education, public distribution, road transport, crime tracking

“

TESTIMONIALS

Dr. Isher Judge Ahluwalia

Chairperson, ICREIR

Technology Sabha has given us an opportunity to discuss and define what we understand by the concept of Smart City. We are trying to see how we can transform an entire city with the help of technology, innovation, leadership and engagement of people.”

Mr. P H Kurian

Principal Secretary, IT and Industries, Government of Kerala

“Technology Sabha has been highly informative. The sessions were structured very well and I will try to replicate some of these experiences in my state.”

Mr. Shekhar Agarwal

Senior Vice President, Vodafone India

“I am extremely happy that I came here and attended the Express Technology Sabha. The topics that were discussed here are very relevant to my interest and my company.”

Mr. Amod Ranade

General Manager, Data Centre Business, Schneider Electric

“We are very thankful to the Indian Express Group for organising Technology Sabha which is an ideal platform for technology providers and users.”
